FOREWORD

These are the program plans for the Office of Medical Services for the FY 1973-FY 1977 period. In summary, we are proposing that our program base for FY 1972 be carried forward into FY 1973 and subsequent years with the addition of essentially two new major activities. These are:

(a) Multiphasic Screening/Periodic Health Examination/Information Processing System (and related sub-activities), and

(b) Behavioral and Social Sciences.

For these new activities we are requesting [REDACTED] in additional funds for FY 1973 and lesser amounts for the subsequent years. We project no increase in staff or contract personnel ceilings.
